DESCRIPTION
Arbokol AG1 is a cost effective one part Polysulphide sealant which cures on exposure to moisture vapour to form a firm but flexible rubber.

MAIN APPLICATIONS
Recommended for use in expansion joints in brickwork and blockwork. Recommended for the perimeter sealing of timber frames and where overpainting of sealant is required.

NB: Not recommended for vertical joints wider than 25mm or for horizontal joints wider than 20mm. Due to the relatively slow cure of Arbokol AG1 it is not recommended for use in public areas, schools and areas liable to vandalism unless the joint can be protected during its cure period. Not recommended for use against natural stone and for use in internal situations.

PAINTING
This product can be painted however due to the wide variety of paint and coating systems available the customer should carry out a pre-test trial before work begins.

Please contact technical department if further advice is required

SPECIFICATION COMPLIANCE
BS EN ISO 11600 – F – 20 HM

APPLICATION INSTRUCTIONS
Joint preparation
The joint surfaces must be clean, dry and free from all contamination. The surfaces should be degreased using the appropriate Arbo Cleaner. Primers may be required on some substrates. It is recommended that Adshead Ratcliffe Technical Services Department should be consulted and advice obtained with regard to the choice of primer for specific purposes.

Joint Backing
Where applicable, appropriate joint filler e.g. closed cell polyethylene foam, should be used to provide the correct joint depth.

All joint preparation, priming, and sealant application should be carried out in accordance with BS 8000 Part 16, the British Standard for the sealing of joints in buildings using sealants

APPLICATION
Arbokol AG1 is supplied in polyethylene 380ml cartridges and can be applied into the joint using an Arbo Caulking Gun

Joint Size Suitability
Joint Width
Minimum 6mm
Maximum 25mm

Joint Depth
Minimum 10mm on porous substrates
Minimum 6mm on non-porous substrates
Maximum 12.5mm

Width: Depth ratio (within above min/max restrictions)
2:1 butt joints
1:1 lap joints/floor joints

PACKAGING
25 x 380ml Polyethylene Cartridges per box. Polyethylene Nozzles are included in each box.

COLOURS
White, Grey, Black, Buff, Teak, Rustic Red, Portland.

STORAGE LIFE
9 months in original unopened packaging stored in a cool, dry place out of direct sunlight.

HEALTH AND SAFETY
No particular health hazards are associated with this product but please consult Material Safety Data Sheet for full information.
TECHNICAL DATA
Skin Time at 20º C/65 % RH: 12 hours
Application Temperature: + 5º C to + 35º C
Service Temperature: - 40º C to + 90º C
Typical Shore Hardness: 35
Cure Rate at 20º C/65 % RH: 14-28 days in external situations depending upon joint configuration and atmospheric conditions. Not recommended for use in internal situations
Chemical Resistance: Resistant to most dilute acids and alkalis, petrol, diesel or jet fuel and many solvents and vegetable oils.
UV Resistance: Very Good
Service Life: 20 years +
Movement Accommodation: Butt joints (movement in tension and compression): 25 %.
Lap joints (movement in shear): 50 %.

ACCESSORIES
Primers
Arbo AG2 Porous Primer (500ml tin): Yield approximately 125 metres per tin
Arbo 7750 Primer (500ml tin): Yield approximately 500 metres per tin

CLEANERS
Arbo Cleaner No.17- 1 Litre Tin (Xylene based – not suitable for use with plastics or delicate finishes)
Arbo Cleaner No. 16 - 1 Litre Tin (Alcohol Based)

Ancillary Equipment
Polyethylene Nozzles
Arbo Caulking Guns
